RE: QUALITY LIFE COMMERCIAL

We were looking around for solutions to effectively address the odour problem in our Club's toilets.

After some consideration, we decided to install your Quality Life Commercial Ozone device.

They proved to be effective to solve the odour problem as recommended by your staff.

The device's functions and features are practical and the remote control makes it convenient and user friendly. We received no complaint so far after installing the units.

It is a cost effective way to tackle odour problems.

Thank you and best regards,

Dzulkifli Hamid
Facilities Executive
